DATE MAILED:

Please find below and/or attached an Office communication concerning this application or proceeding.

Commissioner for Patents

This after allowance communication is set forth in order to set the record straight reasons for allowance of claims 34 - 41 as indicted in the Notice Allowance that was mailed on June 5, 2006.

The following statement is the reasons for allowance of claims 34 - 41.

The prior art of record neither anticipates nor renders obvious the claimed subject matter of the instant application as a whole either taken alone or in combination, in particular, prior art of record does not teach "forming a layer containing hydrogen over the oxide layer; heating the layer containing hydrogen to emit hydrogen therefrom; and separating the substrate from the layer containing hydrogen after the heating," as recited in claim 34.

In addition, claims 35-41 are also allowed as being dependent of the allowed independent base claim.
